मातृ-पितृ पूजन दिवस

14 फरवरी 2024 को श्री आसारामजी गुरुकुल द्वारा आयोजित " मातृ-पितृ पूजन दिवस " दशहरा मैदान मे आजोजित किया गया है। इसमें लगभग 20 से 25 हजार लोगों ने भाग लिया।

सुन के पुकार माता - पिताओं की, दिल से उठी उनकी आहों की, संत श्री आशारामजी बापू का हृदय भर आया, बापूजी ने एक नया दिवस चलाया, जो मातृ - पितृ पूजन दिवस कहलाया। "हजारों-हजारों युवक-युवतियाँ तबाही के रास्ते जा रहे हैं। वेलेंटाइन डे' के बहाने 'आई लव यू - आई लव यू' करते करते दिन-दहाड़े लड़का-लड़की एक-दूसरे को छुएँगे तो रज- वीर्य का नाश होगा। आने वाली संतति तो तबाह होगी लेकिन वर्तमान में वे बच्चे-बच्चियाँ भी तो तबाह हो रहे हैं। तो लाखों - लाखों माता-पिताओं के हृदय की पीड़ा से मेरा हृदय द्रवित हुआ। मेरा हृदय इसका समाधान खोजते-खोजते जहाँ सभी समस्याओं का सही उत्तर मिलता है, उधर गया तो मैंने कहा : विरोध नहीं, विद्रोह नहीं।

तो ऐसी गंदगी हमारे देश में न आये इसलिए मैंने वेलेंटाइन डे' मनाने के बदले 'मातृ-पितृ पूजन दिवस' मनाने का आह्वान किया है।"

SHIV RATRI CELEBRATION

Student Participation

Students from various classes participated in the celebration, showcasing their talent and devotion. They presented traditional dances, songs, and skits, highlighting the significance of Shivratri.

PEER-TO-PEER LEARNING

Peer-to-peer learning in a computer lab practice - means that students working on computer-based tasks during lab time actively help each other learn by sharing knowledge, explaining concepts, troubleshooting problems, and essentially acting as mini-teachers to one another, fostering collaboration and deeper understanding within the group.

Key aspects of peer-to-peer learning in a computer lab practice:

Collaborative problem-solving : Students work together to debug code, resolve software issues, or navigate complex tasks, benefiting from diverse perspectives and approaches.

Explaining concepts to peers : Students who grasp a concept readily explain it to others, reinforcing their own learning through teaching.

Sharing best practices : Students can share efficient techniques, helpful shortcuts, or alternative solutions they discover while working on the same task.

Rotating roles : Students can take turns being the "expert" on a specific topic or step, allowing everyone to contribute and learn from each other.

Learning basic coding can be an empowering experience that teaches a wide range of skills: creativity, problem-solving, perseverance, confidence, and more. Teaching coding to your students helps them to better understand how the modern world works, and perhaps, someday, shape the digital future. We are working on New coding application-:Scratch, code. Org, Html, python, Tux paint etc.
